REVIEW

Rocket makes one of the best espresso machines in the world and what's best from it is that their machines are, "made by hand." The detail of creating one of the finest espresso machine is manifested in there. The Rocket Appartamento stands out among others. Aside from being compact espresso machine designed for environments where space is at a premium, it also has an outstanding performance for both espresso and milk steaming, ease of use, and the fact that it comes with all the accessories needed to get started. It made a consistently flavorful shot of espresso, and it was easy to set up and use.
